

Step Up with Data: An Improvement Process

Organize for Collaborative Work

- Develop open, honest discussion
- Build trust
- Begin to plan assessment of programs

Faribanks Team Two
Improvement Process

Create Data Overview

- Build assessment literacy
- Organize data teams
- Develop data inventory
- Dig into data
- Evaluate data
- Determine learning needs

- Agree on needs to be addressed

- Examine present instruction through teacher-developed instruction inventory
 - Reflect on self
 - Skills check list

Act and Assess

Develop action plan

- What are we going to do?
- Who will do it?
- For how long?

How do we monitor/follow through?

Progress monitor

- Teacher observations
- AimsWeb
- Teacher tests
- Homework
- Projects

How do we communicate to everyone?

- Get the data out.

Interventions

RtI Model
Professional development
Data team meetings
Grade level meetings
More progress monitoring

Remember: Schedule time to have fun, talk informally about the process, and acknowledge that this is going to take lots of time!
